

Commercial Asset Management

Reduce Risk and Maximize Returns with Portfolio-Wide Insights

Our Commercial Asset Management (CAM) application gives you a 360-degree view of your assets, helping you stay on top of portfolio risk and increase project revenue. Performance monitoring, financials, and powerful reporting tools give you the insights you need to make better decisions. Automated workflows free you up to spend more time making better, faster decisions.

KEY BUSINESS DRIVERS

MAXIMIZE SCALABILITY AND EFFICIENCY

Work smarter and faster with automated workflows for real-time decision-making. Create work orders and schedules, set up automatic invoicing, and never miss compliance or contractual obligations.

STAY CONNECTED TO YOUR DATA

You can spend more time making real-time decisions and less time verifying data accuracy. Our 50+ connections automatically update data from your monitoring and other software systems.

360-DEGREE VIEW OF YOUR ASSETS

Detect and correct underperforming assets quickly with the CAM application's central asset registry. Maintain full insight with performance monitoring, financials, and powerful reporting tools.

SEAMLESS COLLABORATION WITH YOUR TEAM

Our multi-language platform will keep teams of all sizes connected. Stay organized and manage your projects smarter. Pipeline management and collaboration has never been easier.

Commercial Asset Management for a 360-Degree View of Your Clean Energy Portfolio

PLANT AND PORTFOLIO MANAGEMENT

View all plant- or portfolio-level data from one central place so that you always have the right information at your fingertips.

POWERFUL REPORTING

Combine your CAM data and our drag-and-drop report editor to quickly streamline reports.

CONTRACTS AND COMPLIANCE

Manage your contracts and set schedules for compliance obligations to receive reminders in your inbox.

PERFORMANCE MONITORING

View performance data for a plant or portfolio using automated connections to your data sources.

TASKS AND WORK ORDERS

Create tasks and reduce downtime —automation will save you time and reduce risk.

AUTOMATED INVOICING

Faster invoicing with more accuracy. With all the data at your fingertips, PPA energy invoicing has never been easier.

PROJECT MANAGEMENT

Collaborate with your team for on-time project completion and optimized pipeline management.

FINANCIAL MANAGEMENT

We are your go-to financial solution with all your financial statements and budgets on one platform.
